THE
LEMON TREE

THE LEMON TREE

The Lemon Tree cafe heralds the return of Victorian-style glasshouses and English gardens with structural work and glass ceilings that resemble an elongated birdcage or a fluffy loaf of homemade bread. Green, generous splashes of yellow and wood elements fill the space – each and every one, a lemon tree element that is cleverly integrated into the space. High glass windows and ceiling feature allows natural sunlight to stream into the cafe, bringing light into the environment, and allowing a seamless harmony between the indoors and the outdoors.

There's no better place for an Instagrammable post as upon entering The Lemon Tree, the first thing that catches the eye is the seating area in the shade of immense lemon tree. A café located on a busy walkway that offers the perfect spot to unwind and relax with a glass of refreshing lemon based drink or specialty coffee paired with a selection of artisanal pastries and luscious desserts.

The Lemon Tree is a place to reboot during your working day while chatting with friends and colleagues or just enjoying your own company.
